A vital college,

Engaged with its community, and

Dedicated above all else to student success.
Equal Opportunity Policy

Mercer County Community College is committed to a policy of equal treatment and opportunity in every respect of its relations with current and prospective faculty and staff members, without regard to race, color, religion, affectional or sexual orientation, gender and/or gender identity or expression, marital or parental status, ethnicity, nationality, veteran or military status, age, disability and any other legally protected basis. This includes, but is not limited to, recruitment, hiring or appointment, selection for training, transfer, layoff, promotion, compensation, and granting of tenure.

Questions regarding the equal opportunity policy and compliance statement may be directed to the Affirmative Action Officer, West Windsor Campus, (609) 570-3270.

The catalog of Mercer County Community College, published annually, presents general information about MCCC, general academic regulations, and the college’s academic program extant at the date of publication (May, 2014). All catalog content is deemed current and accurate as of this date. The college reserves the right to change the regulations, fees, and other information contained in this publication at any time without prior notice, although such changes will be announced.

Failure to read this publication does not excuse students from the requirements put forth herein.

Mission and Goals

Mercer County Community College is a comprehensive, publicly supported two-year institution focused on learning and student success. The college welcomes students of all ages from a wide variety of backgrounds, abilities, interests, levels of education, and economic circumstances to a challenging and supportive environment dedicated to meeting the educational needs of 21st century global citizens and lifelong learners. Mercer responds to a broad array of community needs, offering programs and services for employers, continuing education and training for the workforce, enrichment for youth, and cultural opportunities for people in the region.

The following goals guide the college's quest to fulfill its mission:

To provide high-quality academic programs, courses, and instruction for a broad, diverse student population including:

• associate degree programs consisting of first- and second-year courses that transfer to four-year colleges and universities offering baccalaureate degrees;

• associate degree and certificate programs that prepare students for direct entry into occupations and careers;

• preparatory programs and courses to strengthen students' reading, writing, and quantitative skills;

• general education courses and experiences for each student that incorporate the best traditions of higher learning while supporting the educational needs of 21st century global citizens, workers, and lifelong learners;

• high-quality instruction and engaging learning experiences from dedicated faculty.

To offer high-quality continuing education programs including:

• professional development opportunities for individuals to enhance existing skills, learn new skills, and obtain industry certifications;

• training programs and resources for businesses, government agencies, and not-for-profit organizations;

• personal development and enrichment programs responsive to the current and emerging needs of individuals throughout the community.

To provide services and activities that support individual student success including:

• learning assistance, resources, and services beyond the classroom to support the identification and attainment of individual education objectives and career goals;

• co-curricular activities and services that build leadership skills, foster social and emotional growth, promote health and wellness, and prepare students for global citizenship.

To foster a campus culture that celebrates and values diversity, inclusiveness, and respect and supports the personal and intellectual growth of all students, faculty, and staff in a setting that is characterized by:

• integrity and responsible behavior;

• effective internal and external communication.

To maintain resources that support open admissions, affordability, quality teaching, innovation, and a safe and sustainable campus including:

• financial assistance to all eligible students;

• innovation and technology in programs, services, and methods of instruction that respond to community needs and contribute to student achievement and success;

• a safe, clean, and well maintained campus with practices and programs that promote and support institutional and environmental sustainability.

To foster community connections that enhance the cultural and economic vitality of Mercer County including:

• activities and programs which contribute to the civic, cultural, aesthetic, and recreational life of the community;

• cooperative relationships with other educational institutions, government agencies, community organizations, professional associations, and business and industry;

• year-round and summer activities for youth, including those that foster development through academics, recreation, and creative expression.

To maintain a commitment to assessment to evaluate the college's success in meeting these goals and improving institutional effectiveness.
College Overview

Mercer County Community College (MCCC) is a publicly supported two-year college offering associate in arts, associate in science, and associate in fine arts degree programs that lead to transfer to four-year colleges. It also offers associate in applied science degrees in career areas, some of which also lead to transfer; certificates of proficiency in career specializations; and two certificates of proficiency in cooperation with Mercer County Technical Schools.

Through county and state support, the college is able to provide quality programs and services at the lowest possible cost to reduce economic barriers to attendance. State, federal, and private financial aid programs also are available to individual students.

Mercer is a coeducational institution with an open admissions policy. Students may enroll in credit programs as well as a variety of noncredit programs, and may attend day, evening, and weekend classes at the West Windsor Campus, the Trenton Campus, or through MercerOnline.

The West Windsor Campus (WWC)

The 292-acre West Windsor Campus is located approximately six miles north of Trenton on Old Trenton Road in West Windsor/Hamilton Townships, bordering Mercer County Park. The campus consists of 14 buildings, a greenhouse complex, and intercollegiate athletic facilities including a state-of-the-art all-weather soccer venue.

The central campus buildings surround a landscaped bi-level quadrangle that provides an informal gathering place for students. Most buildings are connected by a second-floor, glass-enclosed corridor and accommodate the mobility impaired.

The campus is home to Kelsey Theatre, WWFM, The Classical Network, the MCCC television network, and the MCCC Art Gallery.

MercerOnline

MCCC’s online courses offer motivated students convenient, flexible, quality learning options anytime, anywhere – 24 hours a day, 7 days a week. These highly interactive courses offer and deliver the same learning outcomes as traditional face-to-face classroom courses. Many programs allow students to complete the majority of course requirements online.

Distance learning classes at MCCC are developed, taught, and overseen by fully qualified faculty members. They are also served by a nationally recognized support team which provides both online and face-to-face orientations, helping students get off to a great start.

In addition to Fall and Spring semesters, online courses are available during Winter and Summer sessions. They are transferable to other higher education institutions, and many four-year college students enjoy the savings and convenience of earning credits online at MCCC.

Distance learning is ideal for students capable of using technology, who have easy access to a personal computer with a reliable Internet connection, and possess good time-management skills. Thousands of students each semester opt for MercerOnline classes.

Students wondering if online learning is right for them can test drive an online course at www.mccc.edu/merceronline.

The Trenton Campus (TC)

The MCCC Trenton Campus, a modernized educational facility serving as the educational hub for downtown Trenton, encompasses James Kerney Hall, Trenton Hall, and the TC Career Center. Opened in Fall 2012, the new Trenton Hall houses a fashion design sewing laboratory, art and design studio, and Mac PC design laboratory.

The campus features state-of-the-art biology and chemistry laboratories, five high-tech computer labs, a pre-nursing and healthcare suite, seminar rooms, a multipurpose community room, and Student Commons. Additional student services include the comprehensive Dr. Beverly A. Richardson Learning Center (computers, tutoring, and Testing Center), campus library, and the Center City Café (serving full meals and snacks) staffed by MCCC culinary students.

Students can earn degrees in the MCCC Criminal Justice and Liberal Arts programs entirely at the Trenton Campus, which is also home to the college’s newly developed Fashion/Apparel Design and Fashion Merchandising programs. GED and English as a Second Language (ESL) instruction and short-term options through the Career Training Institute are also offered, as is a full complement of educational and enrichment programs for the city’s youth through Youth College.

Located at 102 North Broad Street between Hanover and Academy Streets, the campus is nestled between the Trenton Public Library, the YWCA, and the Daylight Twilight High School.
Accreditation

Mercer County Community College is accredited by the Middle States Commission on Higher Education. The State of New Jersey Secretary of Higher Education has authorized the college to award the associate degree.

Aviation Flight Technology is accredited by the Aviation Accreditation Board International.

The Medical Laboratory Technology program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences.

The Nursing program is accredited by the New Jersey Board of Nursing, 124 Halsey Street, 6th Floor, Newark, NJ 07102 973-504-6430 and the Accreditation Commission for Education in Nursing (formerly NLNAC), 3343 Peachtree Rd. NE, Suite 850, Atlanta, GA 30326 404-975-5000.

The Occupational Therapy Assistant program at Rutgers, The State University of New Jersey is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), 4720 Montgomery Lane, Suite 200, Bethesda, MD 20814; 301-652-AOTA www.acoteonline.org.

The Paralegal program is approved by the American Bar Association.

The Physical Therapist Assistant program is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 1111 North Fairfax Street, Alexandria, VA 22314; 703-706-3245 www.capteonline.org.

The Radiography program and the Radiography Diploma Program concentration of the Health Science program are accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT) and the New Jersey Radiologic Technology Board of Examiners.

Advisory Commissions

Many of Mercer’s academic programs benefit from advisory commissions that embody appropriate professional backgrounds and expertise. Members provide guidance and serve as a communication link between the college and the community, and between the college and professional, occupational, or special service groups. They acquaint the community with available college resources and the college with community needs.

In addition to providing advice, commission members identify technical information, equipment, and facilities necessary to establish programs and resources or to modify existing ones so they will remain up-to-date.

Alumni & Friends Association

Mercer serves its alumni through the MCCC Alumni & Friends Association. This group provides ways for alumni to stay connected – with access to important services and amenities at Mercer, and numerous opportunities to give back to the college.

Most alumni receive The Viking newsletter twice a year, filled with news and features. They also receive membership discounts for the MCCC Fitness Center and pool, and reduced ticket prices at Kelsey Theatre. Alumni have free access to the libraries on both the West Windsor and Trenton campuses and receive invitations to many college functions. The Career Services office encourages alumni to take advantage of College Central Network (www.collegecentral.com/mccc) for online job searches and resume postings.

For these and other services and benefits, students are issued an alumni card at the time of graduation. Cards can also be obtained in person at the West Windsor Campus Library or by e-mailing alumni@mccc.edu.

Alumni are invited to serve on college advisory commissions and mentor students. They are encouraged to support the college’s annual giving campaign, the annual “Spring Into Student Success” and other fundraising events, and/or contribute to student scholarships through an endowment. Leadership opportunities are available with the MCCC Alumni & Friends Association. For more information, e-mail alumni@mccc.edu.

Mercer Students at a Glance

- More than 13,000 students enroll in one or more credit courses each year.
- Mercer County residents comprise three-fourths of the student population.
- International students (non-immigrant) representing more than 100 countries make up 4.3% of the student population.
- Enrollment: 63% part-time, 37% full-time; 48% men and 52% women.
- The average age of a full-time student is 22; average age of a part-timer is 29.
- More than 35% of Mercer’s graduates transfer to senior colleges or universities.
- The average class size is 21.
Student Life

Mercer County Community College offers opportunities for students to grow socially and personally as well as intellectually. Students on Mercer’s campuses enjoy and benefit from personal development and career-related programs, cultural and entertainment events, and numerous other opportunities for social interaction. Such activities help develop leadership skills and good citizenship, and contribute to a high quality of campus life.

Student Orientation

Mercer’s faculty advisors, counselors, and administrators introduce new students to the college at an orientation each Fall and Spring semester. The program acquaints students with the services, policies, responsibilities, and rewards of attending MCCC.

Orientations generally include information about student support programs, a campus tour, and workshops on topics such as choosing a major, study tips, motivation, respecting the rights of others, and career opportunities. Additionally, the orientations offer students structured activities for meeting other students, faculty, college staff, and administrators.

Each student receives a Student Calendar/Handbook.

Student Activities

A variety of activities offers personal enrichment and fun, significantly adding to the student's Mercer experience. Participation helps students develop leadership, communication, interpersonal relations, and problem-solving skills. Students are encouraged to take part in student organizations, clubs, musical performance groups, and intercollegiate sports teams.

Athletics, Fitness and Recreation

Athletics

Mercer County Community College celebrates nearly five decades of excellence in community college athletics. Mercer fields nine teams that compete in the Garden State Athletic Conference (GSAC) and Region XIX of the National Junior College Athletic Association (NJCAA). Teams include men’s and women’s soccer, men’s and women’s basketball, men’s and women’s tennis, men’s baseball, women’s softball, and women’s cross country. Scholarship opportunities are available in most sports for entering student-athletes.

Since 1999, all Mercer teams have qualified at least once for national championships. Since 1998, the MCCC Vikings have captured 54 GSAC titles and 42 Region XIX titles (16 of the latter in the past seven years). The men's soccer team has won the national title eight times in its history, most recently in 2004; the men’s basketball team has won the title twice (1973 and 1974); and the women's tennis team has captured the national title four times (1999, 2000, 2002 and 2005). In 2004, Mercer was awarded the Collegiate Athletic Administrators of New Jersey (CAANJ) Cup for highest point total among all New Jersey community colleges.

More than 200 Mercer athletes have been named All-Americans. Many have received scholarships to continue their academic and athletic careers at major colleges and universities throughout the United States.

Mercer’s student-athletes know they must complement their athletic accomplishments by performing in the classroom. Each athlete is expected to meet academic requirements and agree to academic monitoring. All are offered support services to help them achieve success.

Fitness and Recreation

All students are encouraged to take advantage of Mercer’s facilities for personal health and fitness as well as recreational enjoyment. The MCCC Fitness Center is equipped with fitness apparatus including strength and cardiovascular machines, treadmills, stairmasters, rowing machines, and more. Students also have use of a six-lane, 25-meter swimming pool, tennis courts, and gymnasium during scheduled hours, and may participate in ongoing, free fitness classes including yoga and conditioning.
International Students

Mercer enjoys a large international student population. Hundreds of international students representing more than 100 countries contribute to the intercultural educational exchange on campus.

The college provides special services including courses in English as a Second Language (ESL) as well as courses in core subjects taught for an international population. An international student organization (ISO) offers support and social interaction, and promotes cultural diversity on campus. The office of International Student Services provides information and guidance on immigration, academic matters, cultural adjustment, and personal concerns.

Orientation sessions for new international students and ongoing workshops are available to help students learn about American culture, college life, and immigration regulations.

Organizations

Student Government Association

The Student Government Association (SGA) is the student governing body for all enrolled students. As an elected member, a student has the opportunity to apply leadership skills and to work on programs and activities that contribute to college life.

The SGA is responsible for forming clubs and regulating their funding. SGA members play an important role in college-wide governance as members of college standing committees, including the College-Wide Forum, Student Life, and Curriculum committees.

Student Activities Boards

Student Activities Boards (SAB) at both the West Windsor and Trenton campuses plan and implement programs of social, cultural, recreational, and educational interest. The SAB strives to create a sense of community on each campus.

Publications and Radio

The College Voice, the official student newspaper, publishes periodically during the Fall and Spring semesters. Involvement provides students with experience in all aspects of journalism including interviewing, reporting, writing, editing, layout, and photography.

Open, a literary and photographic journal, annually publishes student essays, poetry, short stories, artwork, and photography.

Drumbeat, a culturally focused publication, shares articles and ideas from the perspectives of Latino, African American, Native American, and Caribbean students.

Viking 89, the college’s all-student radio station, broadcasts from the West Windsor campus Student Center. Providing daily musical entertainment and announcements during Fall and Spring semesters at 89.1 FM (HD-3), the station offers hands-on experience in radio production and announcing.

Performance Groups

Music organizations include the college chorus, jazz band, chamber ensemble, symphonic band, and dance ensemble.

Clubs

The college supports a variety of student clubs. Many are organized around a specific program of study; others are service or social clubs which allow members to take part in programs and activities with other students who share similar interests. All clubs give members the opportunity to get to know other students. New clubs form regularly, based on current student interests. For a full listing, see the college website.
Student Services and Resources

Counseling Programs and Services

Mercer County Community College offers a wide range of programs that promote personal, academic, social, career, and leadership growth. Recognizing that the needs and interests of students vary at different periods of their lives, counselors and student advocates from each academic division as well as in the Student Services offices at the West Windsor and Trenton campuses are available for assistance.

Learning Centers

Learning Centers at both campuses provide an array of free instructional support services for credit and noncredit students, including tutoring in all levels of reading, writing, mathematics, biology, physics, economics, and computer science. There is no charge for tutoring, and no appointment is necessary.

Libraries

The libraries of Mercer County Community College offer a wide array of services and resources to complement and support academic programs and the learning needs of students, faculty, and staff.

A library is located on both the West Windsor and Trenton campuses as well as at the Dempster Fire Training Center. Additionally, the library maintains a significant online presence through its website (www.mccc.edu/student_library) in support of MercerOnline students and those who desire the convenience of remote access to electronic library holdings and services including books, periodicals, images, legal resources, and reports.

Reference services are provided in-person, by telephone, e-mail, and instant messaging. Information literacy instruction for any course is offered in classes or on a walk-in basis for specialized assistance. A one-credit course, LIB 103, is also available for more in-depth information literacy skills development.

Computer Labs

MCCC is equipped with nearly 1300 computers for student use in more than 60 labs. Special-purpose computer labs include those for Mac-based graphics, PC-based animation, and Mac/PC digital video editing.

Both campus libraries offer wi-fi access in addition to open computer labs. There, students have Internet access, printing capability, and use of most standard software including Microsoft Office products and curriculum-specific applications. Attendants are available to answer questions and assist users.

Programs for Academic Services and Success

Programs for Academic Services and Success (PASS) is a comprehensive academic support services program that unites the Educational Opportunity Fund (EOF) program and College-Wide Retention Services (CWRS) into a centralized office that promotes student achievement and persistence. PASS is committed to fostering the academic and social development of MCCC students.

Educational Opportunity Fund

Funded by the state, the Educational Opportunity Fund (EOF) assists eligible low-income, academically under-prepared New Jersey residents to attend college.

EOF is designed to assist participants in developing attitudes, skills, and abilities that enable them to achieve their educational goals. Students who are accepted into the EOF program are given personal counseling, academic advisement, tutoring, and supplemental instruction. Participants also benefit from cultural/educational enrichment activities, leadership development, tours of four-year colleges, as well as grants to those who qualify.

Students interested in participating in the EOF program must complete the Free Application for Federal Student Aid form (FAFSA; see page 16), apply to PASS, and attend an intake interview to qualify for selection.

College-Wide Retention Services

The College-Wide Retention Services (CWRS) component of PASS offers a First-Year Experience (FYE) program comprised of Freshman Seminar, faculty/staff mentoring, Nursing Resource Center, and peer mentoring and needs assessment for all incoming and “at risk” students.

CWRS also coordinates the Academic Alert System which gives advance notice of students who are not performing well in courses so that MCCC can offer the academic support they may need, as well as the Academic Status Appeal process which allows students who have not demonstrated sufficient academic progress an opportunity to improve through the services provided by PASS.

Veterans Services

The MCCC Veterans Services office assists veterans, military servicemembers, spouses, dependents, and supporters in a wide range of matters: college admissions, class registration, GI Bill benefits, student advocacy, and more.

Located on the second floor of the West Windsor Campus Student Center, the office also coordinates with outside agencies to provide counseling and help with VA disability claims. A Veterans Lounge located in SC222 offers resources and other amenities for veteran students to relax and socialize.
Career Services

Career Services provides resources and counseling to assist students as they search for, define, and reach their career goals.

Students are encouraged to make individual appointments with career counselors, who help them learn about various careers, choose an appropriate college major, clarify career goals, and discover their talents. Assistance is also available for resume and cover letter writing, interviewing skills, networking, salary negotiating, job search strategies, tapping the hidden job market, and business etiquette. These and other employment and career-related topics are also addressed periodically at Career Services workshops.

Supplementing other resources available from Career Services, including career testing and career-related books and videos, the Career Services web page features FOCUS-2, a career planning program for self-assessment, career information, and action plans for achieving career goals.

For job search assistance, listings of both full- and part-time positions as well as internships are posted in the Career Services offices. College Central Network, at www.collegecentral.com/mccc, gives MCCC students and alumni access to job postings from local employers as well as national job boards, plus utilities for resume building and uploading.

Throughout the academic year, the office facilitates on-campus visits from recruiting employers and sponsors job fairs targeting specific majors, where students can learn about job opportunities and talk with local employers.

Special Needs

All college programs are open to qualified individuals who, with reasonable accommodations, meet the academic and technical standards of a program of study. The mission of the Office of Special Services (OSS) is to provide continuing support to students with documented disabilities, assisting these students according to their individual needs. The Director of Academic Support Services and Learning Disabilities Specialists are available to help students make a smooth transition to college.

Students with a documented disability are encouraged to register with the OSS at least three weeks before the beginning of the semester to obtain accommodations and support services. Any student with a disability who would like to receive special services must complete a Request for Services form and provide appropriate documentation. When academic modifications are required, it is the student’s responsibility to present the accommodation form to each of his/her professors. Accommodations are intended to provide flexibility and equalize opportunities for success for students with disabilities.

All information related to a student’s disability is kept confidential and may be accessed only by the OSS staff. Students may sign a Release of Confidential Information form so that the OSS may work with faculty, tutors, and others for the benefit of the student.

The OSS staff is available for individual appointments for academic counseling, scheduling, advisement, advocacy issues, and determination of reasonable accommodations. Any student who is dissatisfied with an accommodation determination may appeal by following the college grievance procedure.

Testing Centers

Academic Testing Centers on both campuses provide students, staff, and the community with examination services. Traditional and online instructors utilize the Center for computer-scored and instructor-graded tests. Students may take tests at their convenience according to the deadlines established by instructors. A student photo ID is required for testing.

The Testing Centers administer the College Skills Placement Test. The West Windsor Campus Testing Center also provides testing for the College Level Examination Program (CLEP) and DANTES DSST proficiency examinations to earn college credits in a variety of subjects. Proctoring is provided for distance learning programs nationwide and abroad.

Services are available during the day, evening, and on Saturdays according to schedules posted and announced each semester.

MyMercer Student Portal

Students can browse courses, register for classes, make payments, explore and monitor financial aid, view and print class schedules, grades and transcripts, and take advantage of many additional online services and features once logged in to their individual account at the college’s student portal, MyMercer.

Instructions to determine the username and password required for MyMercer log-in are available at www.mccc.edu/mymercer. Students are encouraged to bookmark this MyMercer entry page to stay connected and informed.
Enrollment

Admission to Mercer County Community College is open to all people who can benefit from a post-secondary education. MCCC’s student body is diverse and includes adults as well as traditional students. Students may attend day, evening, or weekend classes offered on the West Windsor Campus, the Trenton Campus, or through MercerOnline. Students may enroll full-time or part-time while completing a degree or certificate program, or take courses on an individual basis.

Mercer welcomes applications from students in other New Jersey counties and from other states and countries but reserves the right to limit such enrollments in programs with limited staff and physical capacity.

How to Apply

Prospective students must complete an admission application and have high school and/or college transcripts, or GED scores, and immunization records sent to the Enrollment Services office. SAT or ACT scores may also be sent. Although not required for admission, the results of SAT or ACT assessment may be used for course placement.

Applicants are encouraged to apply online via the college website (www.mccc.edu). Applications are also available in the Enrollment Services office. The college accepts applications throughout the year.

Immunization

State law requires each student matriculated in a degree program to provide a valid record of immunization verifying vaccination for or immunity from mumps, measles, and rubella as well as Hepatitis B. Immunization record forms are available at the Enrollment Services office. Students must complete the form and have it signed by their physician.

Students who attended elementary or secondary school in New Jersey may be able to obtain a copy of their immunization record from their high school. A copy of this record is acceptable in place of the college immunization record form.

Additionally, the law provides for exemption from submitting an immunization record form if a student was born before 1957, has a medical reason for not being immunized, or has a religious objection to immunizations. Students wishing to apply for an exemption may do so at the Enrollment Services office.

College Skills Placement Testing

Students enrolling at Mercer may be required to take a college skills placement test. Available at the Testing Center on both campuses, the exam measures skills in reading, writing, and mathematics. Placement test results will not affect admission to the college; however, the scores will determine eligibility for certain courses and programs.

Who Must Test

The college skills placement test must be taken by:
• all new full-time (carrying 12 or more credits) students;
• part-time students planning to enroll in a course(s) that will bring the transcript to 12 or more credits;
• any student planning to enroll in an English and/or mathematics course.

Students should complete an application to the college before arranging to take the placement test. A student who has tested for placement at another college may submit those scores to the Testing Center for consideration in our placement and advisement process. Students having documented disabilities should request assistance from the Office of Special Services.

Exemptions

The following students are not required to take the college skills placement test:
• those who have achieved a Reading SAT score of 540 or higher are exempt from the English placement test;
• students who have achieved a Math SAT score of 530 or higher are exempt from part of the basic math testing and will be eligible for the College Level Math placement test;
• students who have achieved a Reading ACT score of 21 are exempt from the English placement test;
• 21 on the Math ACT exempts from the basic math testing and qualifies students for the College Level Math placement test;
• students who have earned a degree from an accredited U.S. college or university (transcript evidence is required);
• transfer students who have taken college English and college mathematics;
• students enrolled in MCCC’s English as a Second Language program (ESL placement test is required).

English as a Second Language Placement Testing

Students whose native language is not English and those wishing to enroll in English as a Second Language (ESL) courses should complete the ESL placement test. Contact the Enrollment Services office for more information.
Developmental Studies

Enrollment in Academic Foundations Courses

If scores on the academic placement tests in reading, writing, or basic mathematics do not meet the standards for college-level work, students are required to take Foundations courses before taking courses that require proficiency in those skill areas. Full-time students are expected to complete these courses during their first year, typically in the first semester. Part-time students must enroll in at least one of their required Foundations courses each semester.

A variety of 0-level Foundations courses allows each student to choose a path that best fits his or her needs and interests. Special academic advisors, individually assigned, help Foundations students navigate their choices, while supportive faculty helps them connect with campus academic and social networks.

Class options involve Career Academies, accelerated and brush-up courses, computer-based modular classes, as well as traditional Foundations reading, writing, and mathematics courses. Details on the college’s 0-level Foundations courses can be found among English (page 155) and Mathematics (page 172) course descriptions.

MATHEMATICS

MAT 033, MAT 037, MAT 041, MAT 042, MAT 043

Foundations courses in mathematics provide students with the skills and concepts needed to succeed in mathematics and in other disciplines. MAT 033 and MAT 037 are offered in a classroom setting using a variety of instructional strategies.

As an alternative to the traditional MAT 033 and MAT 037 courses, MAT 041 (Foundation Math I), MAT 042 (Foundation Math II), and MAT 043 (Foundation Math III) offer students a self-paced, modularized approach to the required curriculum. Students work in a lab setting with the support of faculty, lab assistants, and tutors available to assist individuals or small groups as necessary.

Students may complete more than one course in a semester, as these courses are offered in seven- and five-week terms. Those failing to complete the course curriculum in one term can start the following term where they left off, rather than repeating the beginning of the course.

ENGLISH

Modular Classes
ENG 023, ENG 033

Some students who need intensive help with reading and/or grammar take computer-based courses that allow them to work at their own pace. In ENG 023 (writing) and ENG 033 (reading) MODS, students work through a series of learning modules that focus on particular skills. Those who master the modules and pass a final exam move on to ENG 024 (writing) or ENG 034 (reading).

Accelerated Option
ENG 036

Some highly committed students may be ready to complete their ENG 034 and ENG 024 reading and writing course requirements in a single accelerated course, ENG 036, which meets for three hours per day for 11 days. Student should be ready to read and write academic arguments. ENG 036 is offered in the Summer, during Winter Session, and in the first three weeks of the Spring and Fall semesters. Students who pass ENG 036 move on to ENG 101 and other 100-level courses.

Career Academies
ENG 024, ENG 034

Students already knowing the general area of study or particular career path they wish to pursue can benefit from Career Academy designated classes, where the readings and assignments complement a student’s prospective major. Three sets of specialized English courses are offered for majors in Business and Technology, Liberal Arts, and Science and Health Professions (including nursing). Even after participating in a Career Academy course, any student is free to change his or her major.

Admission Assistance

Help is available at every step in the admission process. Students are encouraged to visit the college and meet with staff and faculty. To arrange a campus tour or for additional information or assistance, contact the Enrollment Services office at either Mercer County Community College campus:

West Windsor Campus
1200 Old Trenton Road
West Windsor, New Jersey 08550
(609) 570-3244
E-mail: admis@mccc.edu

Trenton Campus
102 North Broad Street
Trenton, New Jersey 08608
(609) 570-3139
Credits from Other Educational and Life Experiences

Advanced Standing
Mercer will grant advanced standing for demonstrated knowledge gained from courses taken in high school that are equivalent to collegiate entry-level courses. Advanced standing may be granted in foreign languages, mathematics, and other disciplines. Check individual programs for specific information, and contact the Enrollment Services office to determine eligibility.

Advanced Placement
Students who complete Advanced Placement courses during high school and pass Advanced Placement tests at the 3 level or higher are eligible for course credit in the following disciplines:

- Art
- Biology
- Calculus
- Chemistry
- Computer Science
- Economics
- English
- French
- German
- Government and Politics
- History
- Latin
- Music
- Physics
- Psychology
- Spanish

Credit for Nontraditional Learning Experience
Mercer recognizes that learning in the classroom is only part of the learning that takes place in the modern world. Credit may be granted by examinations and other demonstrations of knowledge or skills acquired outside the traditional classroom. These include appropriate life and work experience through military schools, proprietary schools, or training programs.

Detailed information about credits awarded for nontraditional learning experience is available from the Enrollment Services office. Mercer reserves the right to deny inappropriate credit requests.

Veterans may wish to have their military training and experience evaluated for possible college credit. Those wishing to do so should contact the Veterans Services office and submit Joint Service Transcript (JST) or Community College of the Air Force (CCAF) transcripts for evaluation.

LPN-RN Advanced Placement
The LPN-RN advanced placement option offers licensed practical nurses (LPNs) the opportunity to gain experiential credit for their LPN license and receive credit for NRS 110 (Fundamental Concepts of Nursing). Applicants must possess a high school diploma or equivalent, have graduated from an accredited LPN school, possess a valid New Jersey LPN license, and complete all prerequisite course requirements for the Nursing curriculum.

See page 103 for additional details.

Transfer Credits from Other Colleges
Many students use transfer credits earned at other accredited colleges to complete some of their program requirements for a Mercer degree or certificate. In most programs, transfer credits and/or credits awarded by other nontraditional means may be applied, except that a minimum of 15 credits, including those for at least two sophomore-level courses in the major, must be earned at Mercer. Only courses in which a grade of C or better was earned are eligible for transfer credits.

To have credits from another college reviewed for transfer, the student must request that college to send an official transcript of his or her coursework to Mercer’s Enrollment Services office. Foreign transcripts will require, at the student’s expense, translation and evaluation by an approved outside agency.

Approved transfer credits are entered on the student’s transcript only after the student has been accepted in their chosen degree program and is enrolled in classes at Mercer.

Academic Advising
Each new student meets with an advisor to develop educational plans, consider majors, have test scores explained, and build a class schedule. The student will also learn about appropriate support services, transfer details, college costs, and possible financial resources.

In addition, it is essential that students work with a faculty advisor for assistance in making educational choices and selecting courses that meet graduation and transfer requirements.

From the day of admission until the day of graduation, Mercer is dedicated to helping its students get the most from their college experience.
Choosing a Program

Mercer offers a wide variety of programs which lead directly to employment or to transfer to other colleges for further education. Professional staff and faculty are available to assist students in selecting programs most suited to their needs and goals. (See sections on Programs of Study, Career Services, and Transfer to Four-Year Colleges.) It is important for students to select their program of study carefully and to consider the following:

- What careers interest me?
- Is a four-year college education in my future?
- What credits will I be able to transfer to a four-year college?
- Which college program will provide the best training for the career I want?
- What are the academic requirements of the program that is best for me? Given my abilities and interests, am I being realistic?
- How can I plan my financial resources and meet personal responsibilities so that I can go to college?
- What college services and financial programs are available to me?

Program Acceptance

Acceptance in a particular program is based on an applicant's qualifications as evidenced by transcripts of previous academic work, professional recommendations, level of interest, and estimated potential for success. Student enrollment in certain programs is limited due to available facilities and staff. Preference for space in these programs is given to Mercer County residents and early applicants.

Mercer County Community College will not discriminate against any applicant on the basis of personal beliefs or characteristics such as political views, religion, national or ethnic origin, race, color, gender, sexual orientation, age, marital status, veteran status, or disability unrelated to job or program requirements.

Students who are undecided about which degree program to choose or who want to take some courses before choosing a degree program may register for individual courses provided any specified entry requirements (prerequisites and corequisites) are met. Those unsure about a major field of study should indicate a general interest. The admission process cannot continue until a major field or interest area has been declared.

Students who are under 18 years of age must submit written approval from a parent or guardian and school counselor to the Enrollment Services office before they will be permitted to register for courses.

Changing Programs

Students are permitted to switch from one program to another provided that admission requirements for the new program are satisfied and space is available. (See page 21 for procedure.) NOTE: Students who change their program of study must complete all requirements listed in the academic catalog in effect at the time of the program change.

The Academic Year

Mercer's courses are offered frequently enough to allow students to progress toward their degrees or certificates in a reasonable period of time. However, not every course can be offered every semester and term. For student convenience, day, evening, and weekend classes are available throughout the year. Classes are held on both MCC campus, at off-campus sites, and through MercerOnline.

Most classes in the regular Fall and Spring semesters meet for 15 weeks, while a variety of accelerated courses meet for five, seven, or 10 weeks. Winter Session, beginning in late December, offers accelerated four- and six-week courses. Summer terms begin in late May and early July. Classes in shorter terms meet more hours per week in order to cover the material of a typical full semester.

Full-Time Study

A student is considered full time if he or she takes 12 or more course credits in a semester. A normal credit load for a full-time student can range from 12 to 18 credits. Students wishing to carry more than 18 credits must obtain approval from their advisor or academic division.

Part-Time Study

Part-time students take 11 or fewer course credits in a semester. A part-time student who is accepted in a program can choose to attend Mercer as a full-time student whenever he or she wishes by registering for 12 or more credits in a semester.

Part-time students enjoy the same facilities and services as full-time students and have access to the same faculty and most programs of study. They complete program requirements in varying periods of time, depending on the number of credits required by the program and the number of credits completed each semester.

Part-time students may take up to 10 years to complete the coursework for most programs. Some technical programs, however, require that coursework be completed within five years.

Advisement staff is available at both campuses during evening hours to assist part-time evening students with course and program selection as well as career planning.

Flexible Learning

For those students who cannot attend college during the day on Monday through Friday, MCCC offers alternatives with Flexible Learning. Students across multiple disciplines can take evening, weekend, and distance learning courses in order to complete their degree requirements. These alternatives may also be offered in a compressed and/or accelerated format during eight- or 10-week sessions.

Students can accelerate their degree completion by taking two eight-week courses instead of one 15-week course during a semester. Students attending weekend classes on an accelerated basis along with night and distance learning courses could, for example, finish their Business Administration A.S. degree within the same time frame as a full-time traditional student.
The University Center at Mercer: Advanced Degrees on Campus

Extending beyond opportunities for two-year associate degrees, Mercer County Community College maintains agreements with other New Jersey institutions of higher education to allow students to earn bachelor’s and even master’s degrees on-site at MCCC’s West Windsor campus.

For information on these and other such programs, contact Transfer Services or the related academic division at Mercer.

Transfer to Four-Year Colleges

Each year many MCCC students successfully transfer to colleges and universities throughout the country. Individual program descriptions (pages 28-130) include examples of institutions to which recent graduates have transferred.

The college has dual admissions agreements with The College of New Jersey, La Salle University, Montclair State University, New Jersey Institute of Technology (NJIT), Penn State Abington, Rider University, Rutgers University, Saint Peter’s College, and Wilmington University, as well as articulation agreements with many other baccalaureate institutions.

Planning is key to ensure a smooth transition to a four-year institution. Students who wish to transfer should contact a transfer counselor in Mercer’s Transfer and Career Services office soon after beginning their studies. These counselors assist in selecting appropriate electives and general education courses, as well as in identifying transfer institutions that suit a student’s individual needs and educational goals. To aid in this process, Mercer offers transfer workshops and “transfer day” events with representatives from area colleges and universities. Counselors maintain regular contact with transfer institutions.

Transfer Within New Jersey

In a statewide effort intended to maximize transfer credit for courses taken at community colleges, many of New Jersey’s four-year colleges and universities subscribe to a set of “Transfer and Articulation Principles” and a statewide “General Education Foundation.” While all of Mercer’s degree program options are consistent with these statewide agreements, admission to any four-year institution is not guaranteed, and admission requirements vary.

Students can now seamlessly transfer their academic credits – as half of those required for a basic four-year degree – from a completed community college Associate of Arts (A.A.) or Associate of Science (A.S.) degree program to Bachelor of Arts (B.A.) or Bachelor of Science (B.S.) programs respectively.

To transfer successfully, community college students should select an associate degree program that aligns with their anticipated bachelor’s degree major. Five-year degree programs require transfer students to complete all credits required for the bachelor’s degree beyond the initial 60-64 credits that will transfer with the associate degree.

Students planning to transfer to a New Jersey college or university can use NJ Transfer (www.njtransfer.org), an online information system that allows students to check the transferability of their Mercer courses, as well as plan a program of study that is transferable to the New Jersey college of their choice.
Registration

Ways to Register

The college offers a variety of ways for students to register for classes.

Online Registration
Continuing and returning students can register online via the college website (www.mccc.edu).

In-Person Registration
Students can register in person during normal operating hours at the Enrollment Services office on the West Windsor Campus or at the Student Services office on the Trenton Campus.

Fax Registration
New and returning students can register by fax at (609) 570-3861. Students must use the approved form and also include their credit card information.

Mail-In Registration
Students may mail the completed registration form included in the course bulletin available on campus and in public libraries before each semester. The publication includes course times and locations as well as selection guidance and registration instructions.

Student Records

Student Identifier
The MCCC admissions application requires a Social Security number, for federal and state reporting purposes only. Once enrolled, students are assigned a unique student identifier (for the college’s administrative system only – not for student use), which appears on each student’s class schedule as well as on instructor class rosters.

Family Educational Rights and Privacy Act (FERPA)
The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their academic records. For more information on specific provisions of the Act, refer to the “Statement of Student Rights and Responsibilities” section in the Student Handbook.

The college has designated the following student information as public or Directory Information. Such information may be disclosed by the college for any purpose.
- name
- dates/semesters of attendance
- major field of study
- degrees and awards received
- previous institution(s) attended
- participation in officially recognized sports and activities
- weight and height of athletic team members

Mercer County Community College forwards education records to other institutions that have requested the records and in which the student seeks or intends to enroll, or is already enrolled, so long as the disclosure is for purposes related to the student's enrollment.

Currently enrolled students may withhold disclosure of any category of information under FERPA. To withhold disclosure, students must send written notification to the Enrollment Services office within the first three weeks of the semester in which the withholding of Directory Information is to take effect. Request forms are available in the Enrollment Services office.

The college assumes that failure on the part of any student to specifically request the withholding of categories of Directory Information indicates approval for disclosure.

Certification of Enrollment
Students who need official certification of their enrollment at MCCC may obtain it from the Enrollment Services office during normal hours of operation.

Transcripts
The Enrollment Services office processes all requests for official and unofficial transcripts. Other than for in-person requests, students should allow two weeks for official transcripts to be processed, plus additional time for U.S. Mail delivery.

Unofficial and official transcripts are immediately available to students during normal college operating hours at the Enrollment Services office on the West Windsor Campus. Request forms for transcripts are also available at the Trenton Campus Student Services office and can be printed from the college website (www.mccc.edu). Completed forms may be hand delivered, mailed, or faxed to the Bursar’s office accompanied by the appropriate fee.

Transcripts are not released if the student has outstanding financial obligations with the college.
Tuition and Fees

Tuition and fees are established by the Mercer County Community College Board of Trustees. The lowest tuition rates apply to residents of Mercer County, New Jersey. Different rates apply to out-of-county residents, out-of-state residents, and non-U.S. citizens. Tuition is charged on a per credit (or credit-equivalent) hour basis.

The college reserves the right to change tuition or fees at any time by action of the Board of Trustees. For current tuition rates and fees, contact the Enrollment Services office or consult the college website.

In addition to tuition and fees, students are responsible for purchasing books and supplies for classes.

Residency Requirements

In-county tuition rates apply to students who have resided in New Jersey for 12 months and maintain a permanent residence in Mercer County. The college recognizes Mercer County students in active military service as residents of the county.

Students who are not citizens or permanent residents of the United States are charged out-of-state fees unless they meet certain legal guidelines.

To appeal residency status, contact the registrar.

New Jersey Chargeback Program for Out-of-County Residents

New Jersey residents who live outside of Mercer County and wish to attend MCCC can apply for chargeback tuition support. Chargeback enables a student to pay in-county tuition rates. The difference in tuition will be paid by the student’s home county.

Chargeback requests may be approved by home counties for the following reasons:

• The county’s community college does not offer the student’s chosen program or course.
• The county’s community college does not have space available in the student’s chosen program or course.

To apply for and receive a chargeback, the student must do the following:

• Obtain a chargeback form from Mercer’s Enrollment Services office.
• Complete the form and take it to the home-county community college (if there is one) for approval.
• Submit the form to the county treasurer in the home county for approval.
• Bring the completed and approved form to registration or drop it off at the Accounting office before the first day of classes.

Once approved, chargeback eligibility will not be lost if the student’s home county college establishes the same program in which the student already is enrolled at Mercer. Nor will eligibility be lost if space becomes available at that college after the student has been turned away. Eligibility may be lost, however, if the student changes to a program which is being offered at his or her home county college.

Students who are unable to obtain chargeback assistance from their home county may still attend Mercer but must pay higher out-of-county tuition rates. Out-of-state students are not eligible for chargeback assistance, and chargeback does not apply to Foundations courses.

Program-Sharing Agreement

Mercer County and Bucks County residents can enroll at a reasonable cost in academic programs not offered at their home county college. A program-sharing agreement between Mercer County Community College and Bucks County Community College enables students to take basic courses at their home institution and specialized courses for the degree at the other college. Students pay out-of-county instead of out-of-state rates.

Fees

College Fee

The college fee supports student activities, athletics, student publications, identification cards, and other college expenses that benefit students.

Technology Fee

The technology fee helps to offset the cost of college technological resources that support students’ learning and related services.

Course Fees

In addition to tuition, most courses with laboratory, studio, or clinical components and/or open lab support have special fees which cover extra costs of equipment, supplies, or instruction. Most fees range from $20 to $80 per course; however, certain courses have higher fees.

A listing of current course fees can be obtained from the Enrollment Services office on the West Windsor Campus and from the Student Services office on the Trenton Campus.

Other Fees

A registration fee is charged to all credit students each semester to offset the college’s registration system expenses. A graduation fee is charged when a student applies for certification that he or she has completed a degree or certificate program. A late registration fee is charged for course registration after the semester begins.
Refund Policy

Full refunds are available only for classes dropped before the first day of the associated term. Deadlines for partial refund eligibility differ according to term length, as follows:
• 15-week terms: 50% refunds are available for classes dropped within the first seven days of the associated term (NOT the class start date).
• Terms shorter than 15 weeks: 50% refunds are available for classes dropped within the first two days of the associated term (NOT the class start date).

A course dropped anytime after refund eligibility for that course ends will be processed as a withdrawal. (See withdrawal information, page 20.) No refund of tuition or fees will be made to a student who is withdrawn from a course by an instructor due to non-attendance or who is dismissed from the college for cause.

Please be aware that dropped classes or withdrawals can cause adjustments to any financial aid awards, resulting in a balance being due to the college for tuition.

Tuition Waivers

Pursuant to New Jersey law, certain persons who otherwise meet course requirements are permitted to enroll in credit classes at MCCC without payment of tuition, on a space-available basis, provided that tuition-paying students constitute the minimum number required to offer the course. All students are required to pay for books, materials, and fees in excess of tuition.

Senior Citizens

Mercer County residents who are 65 or older may enroll in courses without paying full tuition – but paying all fees – if seats are available in a class after paying students have registered. To take advantage of this opportunity, senior citizens must register in person at either the West Windsor or Trenton campus and pay the applicable semester fees.

Residents of other New Jersey counties who are 65 or older have the opportunity to enroll in courses in which space is available. They pay only in-county tuition and applicable fees.

For more information about credit course registration, contact Enrollment Services; for noncredit registration, contact the Center for Continuing Studies.

Unemployed Persons

Persons who are presently unemployed or have been seeking full-time employment during the past two years may be eligible to enroll in courses on a space-available basis without paying tuition. However, such students are responsible for paying any applicable fees and for covering expenses for textbooks and other class materials. Local unemployment offices can provide additional information.

National Guard Members

National Guard members who have completed Initial Active Duty Training and are members in good standing, or the children or surviving spouse of any National Guard member killed in the performance of his/her duty, may enroll for up to 15 credits per semester without payment of tuition provided that they:
• have applied at www.fafsa.ed.gov for all State and Federal financial aid for which they are eligible;
• have enrolled in a program of study and are in good academic standing.
(See page 17 for associated financial aid application requirements.)

Volunteer Fire, First Aid, Rescue Squad Members

Active volunteer fire, first aid, or rescue squad members in good standing, and their dependent children and spouses, may enroll in courses of up to $300 in value per semester and $600 in value annually, up to a maximum of $2,400 over a four-year period, provided that they:
• reside in a municipality that has agreed by the enactment of a resolution to participate in the program;
• maintain a 2.00 grade point average throughout the program;
• execute an agreement to continue service as a volunteer for a period of at least four years.

Local fire companies and rescue squads can provide additional information.

Payment of Financial Obligations

All tuition and fees are due at the time of registration. Students are responsible for obtaining the necessary funds before registering, or for making payment plan arrangements (see below). Those needing financial assistance should secure funding from the Financial Aid office before registering.

Payment may be made online by credit card, or in-person by cash or check.

No students will be enrolled, given transcripts, or graduated until they have fully paid all college accounts or have made satisfactory arrangements with the Accounting office.

Payment Plans

Flexible payment plans are available for all semesters. Students may obtain details regarding the college’s current options at the Bursar’s office on either MCCC campus or on the college website.

Fines

Fines are charged for overdue library books, parking violations, and misuse of lockers. Library fines are paid at the front desk of the Library, parking fines at the Accounting office, and locker fines at the Security office. More information can be obtained in the Statement of Student Rights and Responsibilities available at the Student Activities office.
Financial Aid

The federal government, the State of New Jersey, and Mercer County Community College offer eligible students a range of financial aid opportunities. A student or applicant who needs financial aid should apply as early as possible—even before completing an application for admission.

Most student financial aid is provided in the form of grants through federal and state-funded programs. This money is specifically awarded for education-related expenses including tuition, fees, books, and indirect costs such as living expenses and transportation. Eligibility depends upon financial need. Other grants are available through private scholarships and college-sponsored grants-in-aid.

Specific programs and their eligibility requirements are outlined in the tables on pages 18 and 19.

How to Apply

To be considered for all federal, state and MCCC financial aid, students must complete the Free Application for Federal Student Aid (FAFSA). The application should be completed online at www.fafsa.gov. The federal school code for Mercer is 002641.

Deadlines

To ensure that financial aid arrives before tuition and fees are due, applications and supporting documents should be submitted before May 1 for the full academic year or the Fall semester, and before October 1 for the Spring semester only.

Students who submit applications after these dates should be prepared to pay semester tuition and fees themselves with the possibility of receiving financial aid after the semester begins. If an award is made, the student will receive an appropriate refund.

General Eligibility Requirements

Federal Aid

For federal financial aid eligibility, students must:
• be United States citizens or eligible noncitizens;
• be accepted in a program of study leading to a degree or certificate;
• have a high school diploma or GED certificate;
• be registered with the Selective Service (if required);
• not be in default status on a student loan or owe a refund on any Title IV federal aid program;
• maintain satisfactory academic progress.

State Aid

To be eligible for financial aid from the State of New Jersey, students must comply with the general eligibility requirements and also must be:
• New Jersey residents for at least one year;
• enrolled for at least 6 credits;
• able to demonstrate financial need according to the state’s need analysis system.

Academic Requirements

Financial aid is awarded only to students who have declared a major in an approved degree or certificate program and who are making satisfactory academic progress. Federal regulations require every college to establish, publish and apply reasonable standards for measuring academic progress. The standards must include both a qualitative measure (the cumulative grade point average) and a quantitative measure (the completion rate). In addition, the maximum time to complete a program cannot exceed 150% of its published length. The chart below outlines the minimum standards of satisfactory academic progress to receive financial aid at Mercer County Community College.

<table>
<thead>
<tr>

</tr>
<tr>
<td>48 or more</td>
<td></td>
<td>2.00</td>
</tr>
</tbody>
</table>

Cumulative credits attempted counts all coursework, including withdrawals, incompletes, repeats, noncredit remedial courses and transfer credits. The completion rate is equal to credits earned (which counts only coursework for which the student earned a grade of A, A-, B+, B-, C+, C, D, or S, including transfer credits) divided by the credits attempted. Up to 30 noncredit remedial courses are exempt from this calculation. Students whose coursework consists entirely of noncredit remedial courses and/or transfer credit are exempt from the cumulative GPA standard because they do not have a calculated grade point average.

The cumulative academic progress of each financial aid applicant is reviewed annually when Spring semester grades are posted or when the annual financial aid application is received, whichever is later. All periods of the student’s enrollment except the semester in progress are included in the evaluation, regardless of whether or not financial aid was awarded. Students who fail to meet all of the prescribed standards for satisfactory academic progress will be denied financial aid.

Applicants denied financial aid due to unsatisfactory academic progress have the right to appeal for reinstatement of eligibility, providing evidence that:
• an error was made during the academic progress evaluation; or
• mitigating circumstances (serious illness or injury, death in the family, etc.) prevented successful completion of courses attempted; or
• the maximum time frame to complete a program was exceeded due to a curriculum change or the pursuit of more than one associate degree or certificate.

Appeals must be submitted in writing along with relevant supporting documents to the Financial Aid office. The Academic Progress Appeals Committee will review the appeal and notify the student by mail or e-mail once a decision has been made.

Students ultimately judged not to be making satisfactory progress may once again meet satisfactory progress standards by enrolling for one semester at their own expense to complete all courses attempted and earn a minimum GPA of 2.00 for the term – with no failures (F), withdrawals (W), incompletes (I), or “no credit” (NC) grades of any kind. Upon successful completion of the semester, an appeal for reinstatement of eligibility may be submitted to the Financial Aid office.

Federal regulations permit financial aid to be awarded for no more than 30 semester hours of noncredit remedial coursework. Once a student has attempted a total of 30 semester hours of remedial courses, no additional remedial courses will qualify for financial aid. English as a Second Language (ESL) courses are exempt from the remedial course limit.

Academic eligibility for all New Jersey financial aid programs is governed by the same standards of progress described above.

Work-Study on Campus

The Federal Work-Study Program is a federally funded program for students who need financial assistance to help with educational expenses. The program provides a maximum of 14 hours of work per week when classes are in session and up to 28 hours per week, with prior approval, during vacations. For more information, contact the Work-Study coordinator.

Veterans and Military Benefits

Veterans and eligible dependents wishing to apply to the U.S. Department of Veterans Affairs GI Bill education benefits or Military Tuition Assistance should contact the MCCC Veterans Services office. New students should bring their original Discharge Document (DD form 214 / copy 4) or a Notice of Basic Eligibility (NOBE).

The staff will assist veterans in completing necessary paperwork required each semester. Alternatively, the application may be completed online at www.gibill.va.gov. If filing online, print and bring a copy of your application to the Veterans Services office.

Initial application for benefits should be completed as far as possible in advance of registration for classes. Returning students must submit a copy of their class schedules to the Veterans Services office for certification with the Veterans Administration. Any changes in enrollment status or change of major must be reported to the Veterans Services office as soon as they occur.

New Jersey National Guard Tuition Waiver Program

New applicants for the National Guard Tuition Waiver Program should complete their paperwork six to eight weeks before registration. All National Guard students, both new and returning, must submit an original Commander’s Letter of Certification (NJDMVA form 621-2-R15Nov00) each time they register for courses. This letter must be dated no more than 60 days prior to registering for courses – up to a maximum of 16 credits per semester. For any additional credits, Guard personnel must pay full tuition and fees.

All applicants, new and returning, must submit a Free Application for Federal Student Aid (FAFSA) annually. In addition, National Guard students must complete and submit an application to MCCC and take the college skills placement test.

All veterans and National Guard students may submit appropriate documents to be evaluated for the possible awarding of credits for military training. Contact the Veterans Services office for additional information.

MCCC Scholarships

The MCCC Foundation, civic groups, professional societies, local corporations, and generous individuals support an array of student scholarships awarded for both the Fall and Spring semesters. Recipients are recognized at annual ceremonies for continuing students in October and graduating students in May.

More information on scholarships is available at www.mccc.edu/scholarships. Students can research the scholarships for which they may be eligible and create a profile in the college’s “M-Scholarships” system (STARS Online). Applications for continuing students are accepted from Feb. 1 to Sept. 15; applications for graduating students are accepted from Feb. 1 to April 1. Note: Many donors require that students complete the FAFSA application before they can be considered for a scholarship award, regardless of their financial standing.

Federal and State Aid

Listings of federal and state financial aid programs along with eligibility requirements and application instructions (effective at time of publication) appear on pages 18 and 19. Contact the MCCC Financial Aid office for the most up-to-date information.

Academic Policies and Regulations

Attendance

Regulations
Mercer County Community College does not have a “cut system.” Students are expected to attend all classes of every course on their schedules. Only illness or serious personal matters may be considered adequate reasons for absence.

It is the prerogative of the instructor to excuse absences for valid reasons, provided the student will be able to fulfill all course requirements.

Students in the Medical Laboratory Technology and Radiography programs must arrange with the program coordinator to make up all missed laboratory and clinical hours. Students in nursing courses are required to attend all lecture, recitation, college laboratory, and clinical laboratory sessions.

The college is required by law to maintain attendance reports on students who are funded by Veterans benefits, Social Security payments, and various other federal, state, or private scholarship programs.

Attendance Verification and Progress Grades
Student performance in classes is monitored throughout the semester. If a student’s attendance has been infrequent or performance unsatisfactory, he or she may receive notification in the mail. At any time, the instructor may withdraw the student from class as a result of insufficient attendance.

Students who receive an unsatisfactory progress report are encouraged to see their instructor, advisor, and/or counselor and to take the steps necessary to complete the course successfully by the end of the semester.

Withdrawal from Courses

To receive a W grade for any course, a student should consult with the course instructor or an appropriate division representative and then withdraw officially before two-thirds of the course has been completed by submitting a withdrawal form to the Enrollment Services office. Withdrawal after this point results in a grade other than W (usually F) unless the registrar determines that the student was unable to continue due to extraordinary circumstances beyond the student’s control.

At any time before two-thirds of the course has been completed, the instructor may also withdraw, with a WI grade, any student who has been absent excessively. A student withdrawn by the instructor for excessive absence will not be entitled to any refund of tuition or fees. The student may appeal this action.

It is the responsibility of students sponsored or receiving financial aid to report any change of status (e.g., full-time to part-time) to the sponsoring agency.

The college has the same responsibility. Some agencies adjust the amount of benefits; others may cancel the benefits entirely.

Withdrawal from a course does not necessarily release the student from any academic integrity violation consequences.

Repeating Courses

Students may repeat courses. The most recent grade is the student’s official grade for the course unless the grade is S, NC, X, W, WI, or WA. Only the most recent grade will be used in QPA calculations, although any prior grade will also appear on the transcript. A student who wishes to take a course for the third (or more) time is required to obtain formal, written approval from the appropriate division dean unless otherwise specified.

Auditing a Course

A student who wishes to attend a class regularly but does not wish to receive a grade or credit for the course may request permission to register as an auditor. To receive permission to audit, the student should meet all admission requirements expected of students enrolled in the course, including any course prerequisites and corequisites.

Audit students must pay the same tuition and fees for the entire course as students receiving credit. Attendance requirements for auditors are determined by the course instructor. Intention to audit a course should be declared at registration and to the instructor in the first class session. The appropriate form must be completed and submitted during registration.

Changing from an audit to a credit basis during the semester is not permitted. Credit for audited courses cannot be established at a later date except by enrolling in the course for credit in a subsequent semester and satisfying all course requirements.
Independent Study

In addition to earning credits through formal courses, students may earn credit through approved independent study. Independent study is available for many but not all MCCC courses or for a specific plan of study in a course discipline.

Students plan specific activities and goals with the help of a cooperating faculty member and receive approval for their plans from the applicable academic division dean. The Independent Study Agreement Form is available from the Enrollment Services office and from academic division offices. The student is responsible for bringing the approved form to the Enrollment Services office for official enrollment purposes.

In general, independent study courses should correspond to standard semester lengths so that registration and grading for them can be accomplished within a designated registration period. Should the student take longer than a semester to complete the course, the student will be given an “I” grade when semester grades are processed, subject to change upon completion of the course.

The following guidelines are applicable:
- A student must have completed 15 credits with a minimum quality point average of 2.75 to be considered eligible for independent study.
- A student may select no more than one course by independent study during a semester.
- A maximum of four courses may be taken by independent study in degree programs.
- Courses by independent study must be sponsored by full-time members of the faculty whenever possible.
- Students may not select more than two courses by independent study under the sponsorship of the same faculty member.

Permission for any exceptions to the above guidelines may be obtained from the responsible academic division dean.

Leave of Absence from the College

Students may apply for leaves of absence for periods not to exceed two years. An application, obtained from Enrollment Services, must be reviewed and approved by the responsible academic division dean as well as the college’s Accounting office, then returned to the Enrollment Services office for final approval.

If a student simply drops out or takes an unapproved leave of absence or if an approved leave of absence expires, he or she must apply for readmission to the college.

Readmission

A student who has not attended Mercer for one year or more and has not had a leave of absence approved must complete the admission process again. If returning to a degree or certificate program earlier pursued, all requirements listed in the academic catalog in effect at the time of re-admission to the program must be completed. For more information, contact the Enrollment Services office.

Academic Restart Program

Students who have had a previous academic experience at Mercer and have a QPA of less than 2.0 may apply for an Academic Restart at any time after a period of non-enrollment of at least three (3) years.

If an Academic Restart is approved, all previous MCCC course credits and grades remain on the student’s transcript, but courses taken prior to the period of non-enrollment are no longer counted in the student’s quality point average and the QPA will be reset to zero.

Up to four courses in which credit was earned with a grade of “C” or better prior to the period of non-enrollment may be counted toward graduation requirements and included in the QPA.

A suitable message on the transcript will designate the point at which the Academic Restart became effective. Students are allowed only one Academic Restart. Once approved, it is irrevocable. Contact the Enrollment Services office or the student advocate in any academic division for further details.

Change of Program/Major

A student who wants to change from one program (major) to another must initiate the procedure by requesting a change of program form from the Enrollment Services office on the West Windsor Campus or the Student Services office on the Trenton Campus.

Approval for the change must be obtained from the academic division responsible for the program to which the student wants admittance. The signed request form is then returned to the Enrollment Services office on the West Windsor Campus or Student Services office on the Trenton Campus. A student who is a veteran must also submit a change of program form to the Veterans Services office.
Grading System

Grade Interpretation
Grade reports are accessible via the college website (www.mccc.edu) at the conclusion of each semester. Students may access their grades online, privately and securely, at any time. Grade reports may also be obtained in-person at the Enrollment Services office.

Grades earned are determined by instructors at the end of each semester or term and are recorded on the student’s transcript which is maintained by the Enrollment Services office.

Letter grades have the following quality point values: A=4, A-=3.7, B+=3.4, B=3, B-=2.7, C+=2.4, C=2, D=1, and F=0. Other grades do not count in the quality point average, nor do any grades for courses numbered below 100.

Grade Appeals
Procedures for appealing any course grade or related academic action or decision that affects a student’s standing at the college are outlined in the Student Handbook.

TOTALS:

Quality Point Average (QPA) = \frac{\text{Quality Points}}{\text{Credits Attempted}} = \frac{30.3}{11} = 2.75
Associate Degree Requirements

The college is authorized by the State of New Jersey to grant the Associate in Arts, Associate in Fine Arts, the Associate in Science, and the Associate in Applied Science degrees to regularly matriculated students upon successful completion of study. Each program contains a general education core consisting of courses in written and oral communication, mathematics, natural science, technology, humanities, and social science as well as required courses and elective courses.

Graduation Requirements

Students are responsible for ensuring that they have met all graduation requirements:

• The number of semester hours of credit as specified by the program (usually 60 to 66).
• At least 15 credits, with six of these from courses at the 200 level, in the student's major, earned at Mercer County Community College.
• A minimum quality point average of 2.00 for all work applied toward a degree or certificate. A minimum C grade is required in any degree or certificate course crucial to the major, as indicated in the catalog listing of the program.
• Successful completion of all academic and course requirements of a degree program as specified in the college catalog either in effect at the time of the application for graduation or in effect at the time of the student's original matriculation in the program, provided that not more than 10 academic years passed prior to the intended graduation date and the student has maintained continuous attendance.
• Satisfactory completion of all courses within 10 years of the date of intended graduation, except in allied health and flight technology programs with a time limit of five years. The academic division may, at its discretion, recertify courses taken outside of these time limits.
• Satisfactory completion of a minimum number of credit courses approved as General Education. In accordance with college standards, these minimum requirements are reflected in the catalog listing of each program:
  – 45 credits for the Associate in Arts degree
  – 30 credits for the Associate in Science degree
  – 21 credits for the Associate in Applied Science degree
  – 21 credits for the Associate in Fine Arts degree
  – three credits of English composition for certificates
• All elective courses must be selected from among the courses included in the designated category. A student may not elect a course below his or her placement level in a discipline. It is essential that any questions about electives be reviewed with an advisor familiar with the program.

• Fulfillment of health and fitness requirement by completion of HPE 110 or 111.
• Satisfaction of all financial obligations to the college.
• Submission of the Application for Graduation form available online at www.mccc.edu or in the Enrollment Services office, with payment of the graduation fee.
• Participation in graduation exercises is encouraged.

Academic Foundations Credits

English composition, reading, and mathematics courses below the 100 level prepare students to succeed in college-level programs. To earn a degree, students must complete at least 60 credits in courses above this level.

Multiple Degrees

Students are permitted to earn multiple degrees by completing all requirements for each degree. Completed courses from one degree can be used to fulfill requirements for another degree or certificate.
General Education Policy

Mercer County Community College is committed to providing each student with an educational experience that is shaped by the best traditions of higher learning as it addresses the demands of the modern world. For some students, this experience includes concentrated study in particular subjects required for an intended career path. For all graduates of degree and credit-bearing certificate programs, this experience includes general education.

General education addresses a broad range of learning opportunities for students and establishes high standards for graduates. All degree graduates will be competent in written and spoken English. To the greatest extent appropriate for their degree or certificate, graduates:

- will be competent in critical and quantitative thinking and problem solving;
- will have been immersed in the critical study of what it means to be human;
- will have read, evaluated, appreciated, and written about a wide range of texts and experiences;
- will have learned how to integrate their learning into a lifelong process of understanding themselves, others, and the world;
- will have learned how to contribute toward a better future for themselves and for others.

To an extent consistent with its primary purposes, each course in every program is expected to reflect the college’s commitment to general education, as affirmed in the college’s General Education Core Competencies and General Education Goals and Objectives.

The General Education Core Competencies are skills and values that are critical to students’ ability to be successful in the workplace and at their transfer institutions. These skills facilitate the development of self-directed, lifelong learning. The Core Competencies are embedded, to the greatest extent possible, in all courses:

- Written and Oral Communication in English
- Critical Thinking and Problem-Solving
- Ethical Decision-Making
- Information Literacy
- Computer Literacy
- Collaboration and Cooperation
- Intra-Cultural and Inter-Cultural Responsibility

The General Education Goals and Objectives are associated with specific courses:

- Written and Oral Communication in English
- Mathematics
- Science
- Technology or Information Literacy
- Social Science
- Humanities
- Historical Perspective
- Diversity and Global Perspective

</table>
Approved general education courses are listed on pages 132-133. Each degree and certificate program contains some courses from this list, either as specifically required courses or as electives to be chosen by the student in consultation with his or her academic advisor.

Consistent with State standards, there is greater emphasis on general education within Associate in Arts (A.A.) and Associate in Science (A.S.) transfer programs than within the more specialized Associate in Applied Science (A.A.S.), Associate in Fine Arts (A.F.A.), and Certificate of Proficiency programs. The complete MCCC General Education Policy, with detailed Core Competencies and Goals, may be viewed at www.mccc.edu/gened.

Graduation

Commencement ceremonies take place each year in late May. Students who have graduated in January or the previous August may also participate.

Students eligible for graduation must pay the graduation fee and submit an application form to the Enrollment Services office by October for January graduation, by February for May graduation, and by June for August graduation.

Students are notified of their precertification status four weeks before the desired graduation date. Diplomas are mailed once final certifications are completed and a student’s degree is entered on his or her transcript. For more information about the certification process or specific dates, contact the Enrollment Services office.

Outstanding Scholastic Achievement

Honors Convocation and Recognition Ceremonies

Students are eligible for achievement awards in academic disciplines and programs. Awards for graduating students are presented at an honors convocation ceremony in May. Awards for continuing students are presented at a recognition ceremony in the Fall. The donors of these awards enjoy meeting the student recipients at these events.

Graduation Honors

A candidate for graduation who earns a cumulative quality point average (QPA) of 3.50 to 3.79 graduates with Honors; one who earns a cumulative QPA of 3.80 to 3.89 graduates with High Honors; one who earns a cumulative QPA of 3.90 or higher graduates with Highest Honors. These honors citations are noted on the graduate’s degree.

Academic Honor Lists

The President’s Honor List and the Dean’s Honor List are compiled each semester to recognize outstanding and superior scholastic achievement. These honors are recorded on the student’s transcript.

Full-time students (12 credits or more) are considered for academic honors at the end of each Fall and Spring semester. To qualify for the President’s Honor List, a student must have a 4.00 average. To qualify for the Dean’s Honor List, a student must have a 3.2 quality point average or better, and no grades of D, F, or NC.

Honor Societies

Phi Theta Kappa, an international honor society founded in 1918 for community and junior colleges, has established the Alpha Theta Gamma chapter at Mercer County Community College. Students who meet strict academic requirements and are inducted into Phi Theta Kappa have opportunities for leadership, service, and fellowship.

Alpha Mu Gamma, the national society for foreign languages, has established the Kappa Iota chapter at Mercer.
Programs of Study

The academic programs offered by Mercer County Community College include transfer programs that prepare students for entry into baccalaureate programs, and career programs that prepare students for immediate employment after graduation.

The terms “transfer” or “career” describe the primary objective of the program. Many transfer graduates are employed upon graduation. Many graduates of career programs successfully transfer to four-year colleges, with many of their MCCC credits being accepted.

In general, both types of degree programs require no more than 66 credits for graduation.

General Education

Because Mercer is committed to promoting intellectual development, aesthetic appreciation, and cultural awareness, every program of study includes a general education component. General education focuses on reading analytically, communicating ideas clearly, solving problems, and developing a broad base of knowledge. Students develop analytical, synthetic/creative, and evaluative thinking; scientific reasoning; artistic response and expression; historical consciousness; cultural awareness; and sensitivity to the contemporary world.

For more specifics concerning Mercer's general education policy, see page 24. Applicable courses are listed on pages 132-133.

Transfer Programs

(A.A., A.F.A., A.S.)

Transfer degree (A.A., A.F.A., or A.S.) programs enable students to enter the third year of baccalaureate study at four-year colleges. The largest student enrollments in transfer degree programs are in Liberal Arts, Business Administration, Education, Criminal Justice, and Nursing. Other transfer degree programs range from Architecture, Communication and Visual Arts to Culinology, Computer Science and Plant Science.

For many students, the transfer experience is made easier by “dual admission” and “program articulation” agreements between Mercer and other colleges.

Career Programs (A.A.S.)

Career degree (A.A.S.) programs are designed to prepare graduates for entry-level employment in an occupation which requires both theoretical knowledge and practical skills. Mercer has A.A.S. programs as varied as Accounting, Aviation, Chef Apprenticeship, Radiography, Ornamental Horticulture, Microcomputer Systems Administration, Television, Funeral Service, and Digital Media Arts.

Certain programs – Entertainment Technology and Paralegal, for example – function both as transfer degree and career degree programs, with many graduates transferring to four-year programs and others finding employment. Many employed students use career programs to gain advanced positions in their chosen field or to change careers. Some other A.A.S. programs also provide a basis for transfer to four-year colleges; a student may lose credits, however, if he or she transfers to an unrelated program of study.

Certificate of Proficiency Programs

Mercer offers a number of certificate programs that provide training for specialized occupations. Certificate programs usually require 18 to 36 credits or their equivalent.

Full-time students can complete some certificate programs in one year, while part-time students take longer. Some certificate programs take three years to complete and are available only in the evening.

The Funeral Service certificate program provides training toward completion of the education requirements for professional licensure as a funeral director and requires an associate degree or equivalent for admission.

In compliance with federal regulations, Gainful Employment disclosures for each certificate program are available at www.mccc.edu/programs_certificate

Other Non-Degree Choices

Many students take classes at Mercer without being enrolled in a particular degree or certificate program. The college offers five enrollment categories for such students:

• **Other College** - Students take courses at Mercer to fulfill program requirements at another college.
• **“Jump Start” College** - Qualified high school students earn college credits.
• **Personal Development** - Students take courses for other reasons. Advisors at each campus help non-degree students select courses.
English as a Second Language

Mercer offers a comprehensive program (see page 131) for students who are learning English as a second language. The multi-level sequence consists of 13 credit courses that emphasize grammar, speech, accent reduction, as well as reading and writing skills.

The free ESL entry tests, arranged through the Enrollment Services office, should be completed at least three weeks prior to registration for classes. For ESL course descriptions, see pages 158-159.

Noncredit preparatory ESL courses are offered through Community Education and Training at both campuses.

American Honors

The American Honors program is an enriched college experience for highly motivated, intellectually curious, scholastically exceptional students. It offers a diverse range of intellectual environments and activities that cultivate in-depth learning, encourage individual inquiry, and demand quality performance. Every American Honors at Mercer course emphasizes critical thinking, analytical writing, effective speaking, and interactive learning. American Honors at Mercer students may also have opportunities for independent research, service learning, or fieldwork.

The American Honors program is not a separate track or major; students matriculate in an MCCC degree program and take Honors courses toward fulfillment of their general education and program requirements.

Students possessing a high school diploma (or equivalent) may qualify for admission to the American Honors at Mercer program in two ways:

- Students may apply directly to American Honors at Mercer.
- Continuing students and transfer students from other colleges qualify by achieving a minimum 3.3 grade point average in 12 to 30 credits in college courses numbered 101 or above.

Both continuing students and new students should contact an American Honors Admissions Officer or the Assistant Dean for American Honors at Mercer to learn more.

All successfully completed American Honors at Mercer courses are identified on student transcripts. Students who take these classes are exceptionally well prepared for transfer to four-year colleges and universities, for scholarships, and for success in their transfer institutions and career paths.

For more information, visit www.mccc.edu/honors or www.americanhonors.org

Study Abroad

The MCCC Study Abroad program provides students with the opportunity to broaden their global exposure by traveling to other countries. MCCC students and faculty engage with the international community through cultural immersion experiences which help prepare participants to be successful world citizens.

The Study Abroad program includes short-term, faculty-led study tours; students and faculty have successfully traveled to Western Europe, Central America, and Africa. The program also allows students to study abroad independently for a semester, in the Summer, or during Winter Session.

Study Abroad courses can be taken for credit or on a noncredit basis. For more information, visit www.mccc.edu/studyabroad or e-mail studyabroad@mccc.edu.

Cooperative Education

Cooperative education integrates textbook and classroom learning with work experience. Several academic programs offer cooperative education components, affording many advantages to students able to earn an income while attending college and earn college credits for their work experiences. In addition, many graduates with such prior experience find employment easier to obtain.

A successful co-op experience requires careful delineation of learning objectives and employer willingness to support them. The college assists students in defining objectives and obtaining co-op positions.

Students interested in this learning approach should consult their academic advisor to determine if cooperative education is available in their particular program, and to obtain further details.
