

Business Software Applications

Program **BUS.SFTWR.AAS**
CIP 520101

Associate in Applied Science Degree in Business Management

The Management programs equip graduates with specific technical skills as well as a general overview of the field of business. Awarded the Associate in Applied Science Degree in Business Management, successful graduates of the Business Software Applications option of the Management program will be qualified to obtain entry-level office support positions in business.

PROGRAM OUTCOMES

- Demonstrate facility with current word processing, spreadsheet, and database software applications;
- Analyze/resolve problems related to software applications;
- Use terminology common to the business environment for effective communication;
- Communicate information effectively in both written and oral modes of delivery;
- Comprehend how the global economy and international events affect domestic business decisions.

Students may study full-time or part-time, and may receive credit for previous training in the skills area by applying for credit-by-examination, credit-by-experience, and/or credit-by-articulation. Contact the Administrative Professional program coordinator for additional information.

Admission to the program requires a high school diploma or its equivalent.
