**Examinations and Required Work.** Describe general guidelines for course work, assignments, tests. Explain how assignments (quizzes, tests, essays, projects, portfolios, practicums, etc.) are designed to evaluate the course objectives.

Instructors have some discretion in determining the format and content of required work. However, written and verbal assignments in any history course should be designed to help students develop the General Education skills (historical perspective, critical thinking, information literacy, writing, and public speaking) listed above. Instructors should emphasize these goals in their assignments and should state them in their written and verbal instructions to the students.

History courses must, therefore, utilize essay examinations, written reports and oral presentations as standard methods of assessing student learning. Below are the parameters within which instructors may operate:

**Reading Assignments**
- Textbook as well as primary documents should be clearly assigned to the students

**Exams & Quizzes**
- At least two (2), one-hour exams
- A Final Exam
Exams must include an essay component.

**Writing Assignments** (to assess discipline specific knowledge, communication skills, and critical thinking skills). Students are expected to develop the ability to construct narratives—written or verbal or both—that clearly present their own thesis based on solid evidence that has been thoroughly and critically evaluated. Students are directed in developing competencies in accumulating evidence from a variety of sources, assessing the validity of the evidence, and extracting substantive generalizations from what they have discovered (Information Literacy).

- At least two (2), but preferably three (3), writing assignments
- At least one (1) essay should concentrate on the primary documents
- At least one (1) one assignment should incorporate library or internet research or both; this assignment may be a term paper or group presentation or some other type of project
- Length of the essays may be determined by the instructor; short (e.g., two-page) essays are acceptable

**Academic Integrity Statement:** See [link](http://mlink.mccc.edu/omb/0403_academic_integrity_OMB210.pdf).

Students who cheat or plagiarize on any assignment in this class will receive a “0” on that assignment which may result in the failure of the course and will be subject to further disciplinary action as deemed appropriate by MCCC’s Academic Integrity Committee. Cheating and Plagiarizing are the witting or unwitting use of answers to exams or quizzes from any source other than your brain (i.e. cheating with the aid of unauthorized aids), the copying or use of another’s words for a paper or other written assignment, and the paraphrasing, quoting, or use of not generally known ideas and concepts without proper citations of that material.
