

# HONORS PLACEMENT PATHWAY TEACHER RECOMMENDATION FORM

The Mercer Honors Program is an enriched experience for highly motivated and intellectually curious students. Honors courses offer a more student-driven, seminar-style format and/or more creative lab experience. Some students can place into specific honors courses with a high school teacher recommendation. This form provides an efficient way for high school teachers to provide this recommendation. For more information about the program and placement, visit [www.mccc.edu/honors](http://www.mccc.edu/honors).
