COURSE OUTLINE

Course Number: HPE 151
Course Title: INTRODUCTION TO EXERISE SCIENCE
Credits: 1

1 Class or Lecture Hours
0 Laboratory Work Hours
0 Clinical or Studio Hours
0 Practicum, Co-op, Internship
15 week Course Length

Performance on an Examination/Demonstration
(Placement Score; minimum CLEP score)

Traditional Delivery Methods
(Traditional, Online, Hybrid, Tele-course)

Course Description:
A series of lectures, guest presentations, and student initiated field interviews introduces the student to the history and future of exercise science; wide-ranging careers; current issues in health, wellness, and fitness; and various professional and certifying organizations.

Prerequisites/Co-requisites
NONE

Last Revised:
Fall 2012 (No Changes)

Course Coordinator:
John Kalinowski, MS CSCS, kalinowi@mccc.edu 609-570-3675

Required Text/Other Materials:
NONE

National Dance Association

Course Goals

Upon successful completion of the course, the student will be able to…

1. define and describe the many career opportunities available in exercise science;
2. describe and distinguish the mission, objectives, role and responsibility of each of the careers within the profession and society;
3. identify and distinguish the most reputable certifying organizations/associations/boards in the exercise science industry (what their certification requirements are; what certifications are most appropriate for particular career options; and how to obtain a certification through these organizations.);
4. identify, distinguish, and examine current issues in health, wellness, and fitness effecting the exercise science professional today;
5. prepare a term paper and conduct a presentation on the exercise science profession that they wish to pursue; and
6. work in a team/group setting to create a health, wellness, &/or fitness promotion plan.
**General Education Knowledge Goals**

**Goal 1. Communication.** Students will communicate effectively in both speech and writing.

**Goal 2. Mathematics.** Students will use appropriate mathematical and statistical concepts and operations to interpret data and to solve problems.

**Goal 4. Technology or Information Literacy.** Students will use computer systems or other appropriate forms of technology to achieve educational and personal goals.

**Goal 7. Historical Perspective.** Students will understand historical events and movements in the World, Western, Non-Western or American societies and assess their subsequent significance.

**Goal 8. Diversity and Global Perspective.** Student will understand the importance of a global perspective and culturally diverse peoples.

**MCCC Core Skills**

**Goal A. Written and Oral Communication in English.** Students will communicate effectively in speech and writing, and demonstrate proficiency in reading.

**Goal B. Critical Thinking and Problem Solving.** Students will use critical thinking and problem solving skills in analyzing information.

**Goal D. Information Literacy.** Students will recognize when information is needed and have the knowledge and skills to locate, evaluate, and effectively use information for college level work.

**Goal E. Computer Literacy.** Students will use computers to access, analyze or present information, solve problems, and communicate with others.

**Goal F. Collaboration and Cooperation.** Students will develop the interpersonal skills required for effective performance in group situations.

**Goal G. Intra-Cultural and Inter-Cultural Responsibility.** Students will demonstrate an awareness of the responsibilities of intelligent citizenship in a diverse and pluralistic society, and will demonstrate cultural, global, and environmental awareness.
UNIT 1: Orientation to Careers Opportunities in Exercise Science

- perform a self-assessment and analyze personal and professional interests and dislikes;
- define, identify and discuss the different career opportunities within exercise science;
- identify, distinguish, and discuss the different professional organization/membership opportunities for the different exercise science related fields;
- identify, distinguish, and discuss the different certifications and licenses for the different exercise science related fields;
- identify, distinguish and discuss the different education requirements for the different exercise science related fields;
- identify, distinguish, and discuss the job responsibilities for the different exercise science related fields; and
- identify, distinguish, and discuss the different settings for the different exercise science related fields.

Course Goals: 1-3 & 5; Gen.Ed. Goals: 1,2,4,7, & 8; Core Skills: A,B,D,E, & G.

Unit #2: Orientation & Self-discovery of the Perspective Career of Interest

- conduct field interviews (in the exercise science profession of their interest);
- define their chosen exercise science profession;
- describe the education and other professional requirements for obtaining and succeeding in the chosen profession;
- depict the roles and responsibilities of the chosen profession;
- analyze its impact on society;
- analyze/hypothesize the growth potential for the chosen profession;
- assess and support their interest for wanting (or not) to pursue a career in this chosen profession;
- evaluate and provide feedback on classmate presentations; and
- create a resume that will define the education and professional requirements necessary for achieving the student’s career of choice.

Course Goals: 1-5; Gen. Ed. Goals: 1,2,4, & 7; Core Skills: A,B,D,E, & G.

Unit 3: Orientation to Health, Wellness, and Fitness promotion

- promote health, wellness, and/or fitness for a chosen organization, association, or other personal cause;
- work in a group setting to create a health, wellness, and/or promotion plan to raise funds and awareness for a chosen organization, association, or other personal cause;
- re-evaluate and modify the original plan;
- analyze, project the outcome, and hypothesize possible modifications for further success.

Course Goals: 4 & 6; Gen. Ed. Goals: 1,2,4, & 8; Core Skills: A,B,D,E,F, & G.
Evaluation of Student Learning

*Achievement of the course objectives will be evaluated through the use of the following tools:*

- Students will be required to participate in individual and group (2-4 panelists/group) discussions that will promote identification, description, interpretation, discovery, and/or justification of their beliefs/findings relevant to class topics. In addition, students will be required to assess the presentations of their classmates (based on content, professionalism, style, and relevance to the course).
- Students will also be responsible for participating in and accomplishing one or more short projects relevant to current health, fitness, and wellness issues and/or current health promotion.
- The students will be required to research the exercise science related profession that they may be interested in pursuing as a group. They will then couple that information with that of interviews (min. 2/student) that they will conduct with professionals in their field of choice. This project will require the student to define the chosen exercise science profession; describe the education and other professional requirements for obtaining and succeeding in the chosen profession; depict the roles and responsibilities of the chosen profession; analyze its impact on society; analyze/hypothesize the growth potential for the chosen profession; and finally, to assess and support their interest for wanting (or not) to pursue a career in this chosen profession.
- The group presentation will be accompanied by a YouTube or other video explaining the career that they wish to pursue in an eye catching, entertaining, and professional manner.
- The Mid-term and Final will be an objective and subjective assessment of student learning which will include classification, definition, identification, listing, naming, contrasting, and/or discussion of course appropriate material.

**Class Participation – 20%** 80 pts
- Attendance (20)
- Discussions/Panel Sessions (30)
- Health Promotion Project (30)

**Term Paper and Presentation – 30%** 120 pts
- Paper (60)
- Presentation (40)
- Class Evaluation (20)

**Mid-term Examination – 25%** 100 pts
- Based 100% scale

**Final Examination – 25%** 100 pts
- Based 100% scale

**TOTAL POSSIBLE POINTS** 400 pts
