CURE INSURANCE ARENA  
TRENTON, NEW JERSEY

MERCER COUNTY COMMUNITY COLLEGE

*57th Commencement*

## *Academic Tradition*

The wearing of academic regalia (robes, hoods, and caps) began in Europe in the Middle Ages, not as a symbol of achievement, but as a strategy to stay warm in the drafty halls of 13th century universities. When the practice crossed the Atlantic to become a tradition at early American colleges and universities, students wore academic attire as a kind of uniform that differentiated them from the permanent residents of the town.

In 1894, The American Intercollegiate Commission standardized the robe and accessories, which by this point in history were worn almost exclusively for commencement ceremonies and other significant college events.

According to tradition, undergraduates earning an associate or bachelor's degree wear a black gown with long, full sleeves and a black mortarboard cap with matching tassel. In some cases, they wear hoods or stoles representing the college or university's official colors.

Master's degree candidates wear black gowns with distinctive sleeves, a mortarboard cap, and a hood that is lined with the color or colors of the institution conferring the degree. The Master's hood is trimmed in velvet in the distinctive color of the graduate's academic field of study.

Brown – architecture and fine arts

Light Brown – business

Light Blue – education

White – liberal arts

Yellow – science

Pink – music

Royal Blue – Philosophy (all Ph.D. degrees)

Doctoral regalia is distinguished by long velvet panels adorning the front of a full, black gown and three velvet bars on the bell-shaped sleeves. The gown is trimmed in either black or royal blue, the traditional color of the doctor of philosophy degree, regardless of the disciplinary specialty. The hood is trimmed in a matching velvet and lined in satin in the colors of the institution conferring the degree. The cap for a doctoral ensemble is often made of velvet and may be a mortarboard or a four-, six-, or eight-cornered tam with gold tassel.

Beginning in the 1960s, some colleges and universities departed from the traditional black and adopted gowns in the institution's official colors, though most still adhere to the traditions governing hoods, mortarboards, and tams. Gold and green are the colors of Mercer County Community College. The gold is taken from the flags of both New Jersey and Mercer County; the green is symbolic of Mercer's oak and verdant fields. Together, they symbolize the limitless opportunities education provides.

*“Education means emancipation. It means light and liberty. It means the uplifting of the soul . . . into the glorious light of truth . . . .”*

— Frederick Douglass

# President's Letter

Dear MCCC Graduating Class of 2024,

It is my great pleasure to congratulate all of you on your well-deserved success!

As President of Mercer County Community College, I cherish this opportunity to acknowledge your collective success. This day represents a personal achievement for each of you, but not the same milestone for everyone. Those of you who are the first in your family to graduate with a college degree or credential are celebrating a milestone not only for yourselves, but also for your loved ones. Those of you who plan to transfer to another institution to pursue an additional degree should think of this day as the first step in a series of celebrations along your academic pathway. And those of you who are moving directly into a job in your field will experience the workforce as a graduate for the first time. Whatever your goals for tomorrow and beyond, the entire Mercer community is happy for all of you and proud of your accomplishments.

In 1894, the great Frederick Douglass spoke these words in an address called “Blessings of Liberty and Education,” “Education means emancipation. It means light and liberty. It means the uplifting of the soul . . . into the glorious light of truth . . .” While these words had particular significance for a man who taught himself to read, as a child, while still enslaved, the idea that education is inextricably linked to liberty and truth remains true today and should resonate for all of us. We know that education leads to important, practical outcomes, such as better jobs, improved health, and life satisfaction, but its real impact goes much deeper—empowering individuals, fostering compassion, and preserving our democracy. These are the intangible benefits of your education at MCCC, the “uplifting of your soul.”

With that, I want to thank you for the privilege of sharing this special day with you and your guests. I wish you continued triumph in all that you pursue. We will be here rooting for you!

Sincerely,

Deborah E. Preston, Ph.D.  
President

# Commencement Program

PROCESSIONAL ..... Dr. Deborah E. Preston  
*President*

GRAND MARSHAL ..... Framarz Khoushab  
*Professor of Economics and Statistics, Business Administration*

WELCOME ..... Dr. Deborah E. Preston  
*President*
