Are you curious about how to do “this” or “that” on your Windows or Mac computer?

We are recommending two great YouTube resources for learning about your computer:

Macmost covers how to do almost anything with Apple products with special emphasis on your Mac computer. This channel offers short, concise videos showing how to use, maintain, and improve the software on your Apple product.

We hope that you enjoy these tips and that they make using your technology a little easier and more fun!

Kevin Startvert is a former Microsoft employee who worked on Office 365. He covers how-to's for all Windows-based systems in short, concise videos, including the full Office 365 environment.
